| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | IHC-P                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Immunogen                | A portion of amino acids 18-147 was used as the immunogen for the Lysozyme C antibody.                                                                                                                                                                        |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Lysozyme is an enzyme, commonly referred to as the body's own antibiotic since it kills bacteria. Natural substrate of lysozyme is the bacterial cell wall peptidoglycan (cleaving the beta[1-4] glycosidic linkages between N-acetylmuramic acid and N-ac... |
| Klonalität               | Monoclonal                                                                                                                                                                                                                                                    |
| Klon-Bezeichnung         | [LYZ/3943]                                                                                                                                                                                                                                                    |

|                        |                                                                                     |
|------------------------|-------------------------------------------------------------------------------------|
| UniProt                | <a href="#">P61626</a>                                                              |
| Formel                 | 0.2 mg/ml in 1X PBS with 0.1 mg/ml BSA (US sourced), 0.05% sodium azide             |
| Application Verdünnung | Immunohistochemistry (FFPE): 1-2ug/ml                                               |
| Anwendungsbeschreibung | Optimal dilution of the Lysozyme C antibody should be determined by the researcher. |
