| Artikelname              | Recombinant Influenza A virus A/Switzerland/9715293/2013 NIB-88 (H3N2) Hemagglutinin Antigen (formaldehyde inactivated)                        |
| Artikelnummer            | CRM-VAC-0079                                                                                                                                   |
| Hersteller Artikelnummer | VAC-0079                                                                                                                                       |
| Alternativnummer         | CRM-VAC-0079-0.5                                                                                                                               |
| Hersteller               | Creative BioMart                                                                                                                               |
| Kategorie                | Proteine/Peptide                                                                                                                               |
| Reinheit                 | HCV NS3 Genotype-6a protein is >95% pure as determined by 10% PAGE (coomassie staining).                                                       |
| Anwendungsbeschreibung   | HCV NS3 Genotype-6a antigen is suitable for ELISA and Western blots, excellent antigen for detection of HCV with minimal specificity problems. |
