H1N1 Influenza A Vaccine Antigen (Split Virion), Inactivated, E. coli CRM-VZV-423

Artikelname	H1N1 Influenza A Vaccine Antigen (Split Virion), Inactivated, E. coli
Artikelnummer	CRM-VZV-423
Hersteller Artikelnummer	VZV-423
Alternativnummer	CRM-VZV-423-1
Hersteller	Creative BioMart
Wirt	E. coli
Kategorie	Proteine/Peptide
Reinheit	Protein is >95% pure as determined by 10% PAGE (coomassie staining).
Anwendungsbeschreibung	Immunoassay. Outer membrane protein A (ompA) of S. Enteritidis is a protein directly exposing to outsides of this organism, In hens, the production of antibodies against outer membrane protein A (ompA) during the infection has been demonstrated by inoculating both the complete bacterium and expressed protein produced from ompA DNA vaccine. Vaccination by ompA protein to hens is a poteintail tool to control S. enteritidis contaminated eggs into market, and prevent human foodborne disease from eggs.
