| Kategorie                | Kits/Assays                                                                                                                                                                                                                                                   |
| Applikation              | ELISA                                                                                                                                                                                                                                                         |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | This Human Mannosyl-Oligosaccharide 1,2-Alpha-Mannosidase IB (MAN1A2) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates and other biological fluids . This product is... |
| Detektionsbereich        | 0.312-20ng/mL                                                                                                                                                                                                                                                 |
| Sensitivitaet            | 0.113ng/mL                                                                                                                                                                                                                                                    |
| Proben                   | serum, plasma, tissue homogenates and other biological fluids                                                                                                                                                                                                 |
| Target-Kategorie         | Human Mannosyl-Oligosaccharide 1,2-Alpha-Mannosidase IB (MAN1A2)                                                                                                                                                                                              |
| Anwendungsbeschreibung   | Assay Length: 3 hours. Experimental Method: Sandwich                                                                                                                                                                                                          |
