| Artikelname              | APC Anti-Human CD14 Antibody[UCHM-1], Mouse, Monoclonal                                     |
| Artikelnummer            | ELA-AN00420E                                                                                |
| Hersteller Artikelnummer | AN00420E                                                                                    |
| Alternativnummer         | ELA-AN00420E-100TESTS,ELA-AN00420E-100TESTSX2,ELA-AN00420E-20TESTS                          |
| Hersteller               | Elabscience                                                                                 |
| Wirt                     | Mouse                                                                                       |
| Kategorie                | Antikörper                                                                                  |
| Applikation              | FC                                                                                          |
| Spezies Reaktivität      | Human                                                                                       |
| Konjugation              | APC                                                                                         |
| Klonalität               | Monoclonal                                                                                  |
| Konzentration            | 5 µL/Test                                                                                   |
| Klon-Bezeichnung         | [UCHM-1]                                                                                    |
| NCBI                     | <a href="#">929</a>                                                                         |
| UniProt                  | <a href="#">P08571</a>                                                                      |
| Puffer                   | Phosphate buffered solution, pH 7.2, containing 0.09% stabilizer and 1% protein protectant. |
| Target-Kategorie         | CD14                                                                                        |

|                        |                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| Anwendungsbeschreibung | <p>Each lot of this antibody is quality control tested by flow cytometric analysis. The amount of the reagent is suggested to be used 5 <math>\mu</math>L of antibody per test (million cells in 100 <math>\mu</math>L staining volume or per 100 <math>\mu</math>L of whole blood). Please check your vial before the experiment. Since applications vary, the appropriate dilutions must be determined for individual use.</p> |
