| Hersteller               | MedchemExpress                                                                                                                                                                                                                                                 |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                               |
| Produktbeschreibung      | Envelope Glycoprotein E1 Protein, one of two subunits of the envelope glycoprotein found in the hepatitis C virus, is a type 1 transmembrane protein. It associates with envelope glycoprotein E2 as a noncovalent heterodimer, which mediates virus attach... |
| Molekulargewicht         | Approximately 36.56 kDa, based on SDS-PAGE under reducing conditions.                                                                                                                                                                                          |
| Reinheit                 | 95.1                                                                                                                                                                                                                                                           |
| Formel                   | /(Gene_ID)AAC15725 (Y192-I340)(Accession)                                                                                                                                                                                                                      |
| Anwendungsbeschreibung   | MCE Product type: Recombinant Proteins                                                                                                                                                                                                                         |
