| Produktbeschreibung      | The membraneassociated protein encoded by this gene is a member of the superfamily of ATPbinding cassette (ABC) transporters. ABC proteins transport various molecules across extra and intracellular membranes. ABC genes are divided into seven distinct... |
| Molekulargewicht         | 84.9 kDa & 81.1 kDa                                                                                                                                                                                                                                           |
| Tag                      | N-Flag & C-10*His   N-Flag & C-Twin Strep                                                                                                                                                                                                                     |
| NCBI                     | <a href="#">03518</a>                                                                                                                                                                                                                                         |
| Puffer                   | 50 mM HEPES, 150 mM NaCl, DDM, pH7.5, CHS                                                                                                                                                                                                                     |
| Reinheit                 | 90%                                                                                                                                                                                                                                                           |
