| Alternativnummer         | ABS-FLL-H55H7-1MG                                                                                                                                                                                                                                             |
| Hersteller               | AcroBiosystems                                                                                                                                                                                                                                                |
| Wirt                     | Insect                                                                                                                                                                                                                                                        |
| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | FMSlike tyrosine kinase 3 ligand (Flt3 Ligand) is also known as FL, Flt3L and FLT3LG, is an alphahelical cytokine that promotes the differentiation of multiple hematopoietic cell lineages. FLT3LG is expressed as a noncovalentlylinked dimer by T cells... |
| Molekulargewicht         | 19.9 kDa                                                                                                                                                                                                                                                      |
| Tag                      | C-10*His                                                                                                                                                                                                                                                      |
| NCBI                     | <a href="#">49771</a>                                                                                                                                                                                                                                         |
| Puffer                   | PBS, pH7.4                                                                                                                                                                                                                                                    |
| Reinheit                 | 90%                                                                                                                                                                                                                                                           |
| Formulierung             | Powder                                                                                                                                                                                                                                                        |
