## Product Datasheet

**Monoclonal Anti-Rabies virus (strain CVS-11) Nucleoprotein Antibody,  
Mouse IgG1 (7B7) (MALS verified), Unconjugated, Human  
ABS-NUN-MY2301-1MG**

|                          |                                                                                                                                                                                                                                                               |

| Produktbeschreibung      | The rabies virus nucleoprotein (N) is a highly conserved structural protein essential for viral replication. It tightly encapsulates the viral RNA genome, forming ribonucleoprotein complexes (RNPs) that protect the RNA and serve as templates for tran... |
