### Anti-Hemoglobin/HBA1/HBA2 Antibody Picoband FITC Conjugated, Rabbit, Polyclonal BOB-A00233-1-FITC

|                          |                                                                                                                                                                 |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Anti-Hemoglobin/HBA1/HBA2 Antibody Picoband FITC Conjugated, Rabbit, Polyclonal                                                                                 |
| Artikelnummer            | BOB-A00233-1-FITC                                                                                                                                               |
| Hersteller Artikelnummer | A00233-1-FITC                                                                                                                                                   |
| Alternativnummer         | BOB-A00233-1-FITC-100UG                                                                                                                                         |
| Hersteller               | Boster Bio                                                                                                                                                      |
| Wirt                     | Rabbit                                                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                                                      |
| Applikation              | FC                                                                                                                                                              |
| Spezies Reaktivität      | Human                                                                                                                                                           |
| Immunogen                | E.coli-derived human Hemoglobin recombinant protein (Position: V2-R142). Human Hemoglobin shares 85.8% amino acid (aa) sequence identity with mouse Hemoglobin. |
| Klonalität               | Polyclonal                                                                                                                                                      |
| Molekulargewicht         | Calculated Molecular Weight: 15258 MW                                                                                                                           |
| NCBI                     | <a href="#">3039</a>                                                                                                                                            |
| UniProt                  | <a href="#">P69905</a>                                                                                                                                          |
| Puffer                   | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> , 0.02% Na <sub>3</sub> .                                                     |

|                        |                                               |
|------------------------|-----------------------------------------------|
| Reinheit               | Immunogen affinity purified.                  |
| Formulierung           | Liquid                                        |
| Target-Kategorie       | Hemoglobin subunit alpha                      |
| Application Verdünnung | Flow Cytometry, 1-3µg/1x10 <sup>6</sup> cells |
