## Product Datasheet

### Anti-Bcr Antibody Picoband Fluoro647 Conjugated, Rabbit, Polyclonal BOB-PB9988-FLUORO647

|                          |                                                                                                                                          |
|--------------------------|------------------------------------------------------------------------------------------------------------------------------------------|
| Artikelname              | Anti-Bcr Antibody Picoband Fluoro647 Conjugated, Rabbit, Polyclonal                                                                      |
| Artikelnummer            | BOB-PB9988-FLUORO647                                                                                                                     |
| Hersteller Artikelnummer | PB9988-Fluoro647                                                                                                                         |
| Alternativnummer         | BOB-PB9988-FLUORO647-100UG                                                                                                               |
| Hersteller               | Boster Bio                                                                                                                               |
| Wirt                     | Rabbit                                                                                                                                   |
| Kategorie                | Antikörper                                                                                                                               |
| Applikation              | FC                                                                                                                                       |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                        |
| Immunogen                | E.coli-derived human Bcr recombinant protein (Position: M1-A100). Human Bcr shares 94% amino acid (aa) sequence identity with mouse Bcr. |
| Klonalität               | Polyclonal                                                                                                                               |
| Molekulargewicht         | Calculated Molecular Weight: 142819 MW                                                                                                   |
| NCBI                     | <a href="#">613</a>                                                                                                                      |
| UniProt                  | <a href="#">P11274</a>                                                                                                                   |
| Puffer                   | Each vial contains 50% glycerol, 0.9% NaCl, 0.2% Na <sub>2</sub> HPO <sub>4</sub> , 0.02% Na <sub>3</sub> .                              |
| Reinheit                 | Immunogen affinity purified.                                                                                                             |

|                        |                                               |
|------------------------|-----------------------------------------------|
| Formulierung           | Liquid                                        |
| Target-Kategorie       | Breakpoint cluster region protein             |
| Application Verdünnung | Flow Cytometry, 1-3µg/1x10 <sup>6</sup> cells |
