| Alternativnummer         | GTX04161-02-500                                                                                                                                                           |
| Hersteller               | GeneTex                                                                                                                                                                   |
| Wirt                     | Goat                                                                                                                                                                      |
| Kategorie                | Antikörper                                                                                                                                                                |
| Applikation              | ELISA, FC, IHC                                                                                                                                                            |
| Spezies Reaktivität      | Golden Hamster                                                                                                                                                            |
| Immunogen                | Pepsin digest of Goat Anti-Hamster IgG(H+L).                                                                                                                              |
| Konjugation              | Biotin                                                                                                                                                                    |
| Klonalität               | Polyclonal                                                                                                                                                                |
| Konzentration            | 0.5 mg/ml (Please refer to the vial label for the specific concentration.)                                                                                                |
| Sensitivitaet            | Pre-adsorbed with Mouse and rat immunoglobulins and pooled sera. May react with immunoglobulins from other species and the light chains of other hamster immunoglobulins. |
| Puffer                   | PBS, 0.09% sodium azide.                                                                                                                                                  |

|                        |                                                                                                                                    |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------|
| Formulierung           | Liquid                                                                                                                             |
| Target-Kategorie       | IgG                                                                                                                                |
| Anwendungsbeschreibung | ELISA: 1:5000-1:10000. *Optimal dilutions/concentrations should be determined by the researcher. Not tested in other applications. |
