| Artikelname              | Mouse Anti-Human IgG (Fc) antibody [H2] (Biotin), IgG2b, Monoclonal                                  |
| Artikelnummer            | GTX04177-02                                                                                          |
| Hersteller Artikelnummer | GTX04177-02                                                                                          |
| Alternativnummer         | GTX04177-02-500                                                                                      |
| Hersteller               | GeneTex                                                                                              |
| Wirt                     | Mouse                                                                                                |
| Kategorie                | Antikörper                                                                                           |
| Applikation              | ELISA, ELISpot, FC, Multiplex Assay, WB                                                              |
| Spezies Reaktivität      | Human, Monkey, Primate                                                                               |
| Konjugation              | Biotin                                                                                               |
| Klonalität               | Monoclonal                                                                                           |
| Konzentration            | 0.5 mg/ml (Please refer to the vial label for the specific concentration.)                           |
| Isotyp                   | IgG2b                                                                                                |
| Sensitivitaet            | Reacts with Human/Rhesus/Cynomolgus/Chimpanzee/African Green Monkey/Mangabey/Pigtail Macaque IgG Fc. |
| Puffer                   | PBS, 0.09% sodium azide.                                                                             |
| Formulierung             | Liquid                                                                                               |
| Target-Kategorie         | IgG Fc                                                                                               |

|                        |                                                                                                                                                                      |
|------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Anwendungsbeschreibung | FCM: 1 µg/10 <sup>6</sup> cells. ELISA: 1:10000-1:20000. *Optimal dilutions/concentrations should be determined by the researcher. Not tested in other applications. |
