| Alternativnummer         | GTX89070-100                                                                                                                  |
| Hersteller               | GeneTex                                                                                                                       |
| Wirt                     | Goat                                                                                                                          |
| Kategorie                | Antikörper                                                                                                                    |
| Applikation              | WB                                                                                                                            |
| Spezies Reaktivität      | Mouse                                                                                                                         |
| Immunogen                | Peptide with sequence C-QAFRKAALTSAKAN, from the C Terminus of the protein sequence according to NP_033317.1, NP_001025095.1. |
| Konjugation              | Unconjugated                                                                                                                  |
| Klonalität               | Polyclonal                                                                                                                    |
| Konzentration            | 0.50 mg/ml (Please refer to the vial label for the specific concentration.)                                                   |
| Molekulargewicht         | 74                                                                                                                            |
| NCBI                     | <a href="#">20897</a>                                                                                                         |
| Puffer                   | TBS, 0.5% BSA, 0.02% Sodium azide.                                                                                            |
| Formulierung             | Liquid                                                                                                                        |

Anwendungsbeschreibung

WB: 1-3µg/ml. \*Optimal dilutions/concentrations should be determined by the researcher. Not tested in other applications.
