| Applikation              | ELISA, FC, ICC, IF, IP, WB                                                                                                                                                                                                                                    |
| Produktbeschreibung      | The recombinant anti-HEL mouse IgG2c isotype control antibody binds to neither human nor mouse samples. Recombinant mouse IgG isotype control antibodies help minimize non-specific binding of primary and capture antibodies by blocking interactions bet... |
| Reinheit                 | >95% Determined by SDS-PAGE                                                                                                                                                                                                                                   |
| Anwendungsbeschreibung   | Applications: ELISA,flow cytometry,immunoblotting,immunoprecipitation,immunocytochemistry,immunofluorescence,and isotype controls. Shipping: Ice Bag                                                                                                          |
