| Spezies Reaktivität      | Bovine, Canine, Gallus, Human, Mouse, Rat                                                                                                                                                                                                                     |
| Konjugation              | PE/Cy5                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | Fibroblast growth factors (FGFs) produce mitogenic and angiogenic effects in target cells by signaling through the cellular surface tyrosine kinase receptors. There are four members of the FGF receptor family: FGFR-1 (flg), FGFR-2 (bek, KGFR), FGFR-3... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                        |
| NCBI                     | <a href="#">2260</a>                                                                                                                                                                                                                                          |
| Puffer                   | Aqueous buffered solution containing 0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.                                                                                                                                                        |

|                        |                                                           |
