| Konjugation              | HRP                                                                                                                                                                                                                                                            |
| Produktbeschreibung      | Transducin is a 3-subunit guanine nucleotide-binding protein (G protein) which stimulates the coupling of rhodopsin and cGMP-phosphodiesterase during visual impulses. The transducin alpha subunits in rods and cones are encoded by separate genes. This ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                     |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                         |
| Puffer                   | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.                                                                                                                                                        |
| Quelle                   | KLH conjugated synthetic peptide derived from human GNAT2                                                                                                                                                                                                      |
| Target-Kategorie         | GNAT2                                                                                                                                                                                                                                                          |

Application Verdünnung

ELISA(1:500-1000), IHC-P(1:200-400), IHC-F(1:100-500)
