| Produktbeschreibung      | Sorting nexin (SNX) proteins are members of a large family of hydrophilic PX (phospholipid-binding motif) domain-containing proteins that interact with a variety of receptor types. SNXs are widely expressed, although the tissue distribution of each S... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                        |
| NCBI                     | <a href="#">51375</a>                                                                                                                                                                                                                                         |
| Puffer                   | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.                                                                                                                                                       |
| Quelle                   | KLH conjugated synthetic peptide derived from human SNX7                                                                                                                                                                                                      |

|                        |                                                       |
|------------------------|-------------------------------------------------------|
| Target-Kategorie       | SNX7                                                  |
| Application Verdünnung | ELISA(1:500-1000), IHC-P(1:200-400), IHC-F(1:100-500) |
