| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                         |
| Konjugation              | Biotin                                                                                                                                                                                                                                                        |
| Produktbeschreibung      | RNA-binding protein that regulates alternative splicing events by binding to 5-UGCAUGU-3 elements. Prevents binding of U2AF2 to the 3-splice site. Regulates alternative splicing of tissue-specific exons and of differentially spliced exons during eryt... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                        |
