| Produktbeschreibung      | Apolipoproteins are protein components of plasma lipoproteins (1). The apolipoprotein L gene family encodes six highly homologous proteins designated apoL-I to -VI, which are associated with large high density type lipoproteins (HDL) (2,3). The human... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
