| Produktbeschreibung      | This gene encodes a member of the DEAD box protein family. The DEAD box proteins are characterized by the conserved motif Asp-Glu-Ala-Asp (DEAD), are putative RNA helicases. They are implicated in a number of cellular processes involving alteration o... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
