| Produktbeschreibung      | The exosome is a multisubunit complex composed of several highly conserved subunits, some of which are 3 to 5 exoribonucleases. The complex is involved in a variety of cellular processes and is responsible for degrading unstable mRNAs that contain AU... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                        |
