| Alternativnummer         | BSS-BS-16099R-PE-100                                                                                              |
| Hersteller               | Bioss                                                                                                             |
| Wirt                     | Rabbit                                                                                                            |
| Kategorie                | Antikörper                                                                                                        |
| Applikation              | IF, WB                                                                                                            |
| Spezies Reaktivität      | Mouse                                                                                                             |
| Konjugation              | PE                                                                                                                |
| Produktbeschreibung      | This protein is involved in the oxidative metabolism of a variety of xenobiotics such as drugs and pesticides.... |
| Klonalität               | Polyclonal                                                                                                        |
| Konzentration            | 1ug/ul                                                                                                            |
| NCBI                     | <a href="#">2329</a>                                                                                              |
| UniProt                  | <a href="#">P31512</a>                                                                                            |
| Puffer                   | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.           |
| Quelle                   | KLH conjugated synthetic peptide derived from human FMO4                                                          |

|                        |                                                                             |
|------------------------|-----------------------------------------------------------------------------|
| Target-Kategorie       | FMO4                                                                        |
| Application Verdünnung | WB(1:300-5000), IF(IHC-P)(1:50-200), IF(IHC-F)(1:50-200), IF(ICC)(1:50-200) |
