| Produktbeschreibung      | Histone acetyltransferase localized in the Golgi apparatus that mediates acetylation of free histone H4, thereby facilitating nucleosome assembly. Has a preference for free histone H4 Lys-20(H4K20ac), Lys-79(H4K79ac) and Lys-91 (H4K91ac). Also displa... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
