| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Konjugation              | BF680                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Acts as a transcriptional corepressor in a IRF2-dependent manner, this repression is not mediated by histone deacetylase activities. Represses the NFAT1-dependent transactivation of NFAT-responsive promoters. Acts as a coactivator of VEGFA expression... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
