| Konjugation              | FITC                                                                                                                                                                                                                          |
| Produktbeschreibung      | Kinesin is a microtubule-associated force-producing protein that may play a role in organelle transport. The light chain may function in coupling of cargo to the heavy chain or in the modulation of its ATPase activity.... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                    |
