| Produktbeschreibung      | Functions in the lectin pathway of complement, which performs a key role in innate immunity by recognizing pathogens through patterns of sugar moieties and neutralizing them. The lectin pathway is triggered upon binding of mannan-binding lectin (MBL)... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
