| Konjugation              | BF647                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | C-jun (Oncoprotein C-jun) is a component of the transcription factor AP-1 that binds and activates transcription at TRE/AP-1 elements and appears to be a major downstream target of the SAPK/JNK signaling pathway. The transcriptional activity of c-Jun... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
