| Produktbeschreibung      | This gene encodes a myotubularin-related protein that is atypical to most other members of the myotubularin-related protein family because it has no dual-specificity phosphatase domain. The encoded protein contains a double-helical motif similar to t... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
