| Spezies Reaktivität      | Human, Rat                                                                                                                                                                                                                                                    |
| Konjugation              | BF750                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Molecular chaperone that localizes to genomic response elements in a hormone-dependent manner and disrupts receptor-mediated transcriptional activation, by promoting disassembly of transcriptional regulatory complexes. Belongs to the p23/wos2 family.... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                        |
