| Applikation              | IF, WB                                                                                                                                                                                                                                                        |
| Spezies Reaktivität      | Human, Rat                                                                                                                                                                                                                                                    |
| Konjugation              | PerCP/Cy5.5                                                                                                                                                                                                                                                   |
| Produktbeschreibung      | Molecular chaperone that localizes to genomic response elements in a hormone-dependent manner and disrupts receptor-mediated transcriptional activation, by promoting disassembly of transcriptional regulatory complexes. Belongs to the p23/wos2 family.... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                        |
| NCBI                     | <a href="#">10728</a>                                                                                                                                                                                                                                         |

|                        |                                                                                                        |
|------------------------|--------------------------------------------------------------------------------------------------------|
| Puffer                 | Aqueous buffered solution containing 0.01M TBS (pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol. |
| Quelle                 | KLH conjugated synthetic peptide derived from human Telomerase Binding Protein, P23                    |
| Target-Kategorie       | Telomerase Binding Protein, P23                                                                        |
| Application Verdünnung | WB(1:300-5000), IF(IHC-P)(1:50-200), IF(IHC-F)(1:50-200), IF(ICC)(1:50-200)                            |
