| Produktbeschreibung      | Glycine receptors are ligand-gated chloride channels. GLRB does not form ligand-gated ion channels by itself, but is part of heteromeric ligand-gated chloride channels. Channel opening is triggered by extracellular glycine (PubMed:8717357, PubMed:153... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
