| Produktbeschreibung      | This gene is a member of the iron/manganese superoxide dismutase family. It encodes a mitochondrial protein that forms a homotetramer and binds one manganese ion per subunit. This protein binds to the superoxide byproducts of oxidative phosphorylation... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                     |
