| Produktbeschreibung      | ABCE1 is a member of the superfamily of ATP-binding cassette (ABC) transporters. ABC proteins transport various molecules across extra- and intra-cellular membranes. ABC genes are divided into seven distinct subfamilies (ABC1, MDR/TAP, MRP, ALD, OABP... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
