| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, FC, IF, IHC-Fr, IHC-P, WB                                                                                                                                                                                                                              |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | The breakpoint cluster region protein (Bcr) is best know to be involved in genomic translocation with fusion partner Abl (Cbr-Abl) causing chronic myelogenous leukemia (CML). This 160 kDa protein contains a serine/threonine kinase domain, an SH2 bind... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                        |
| NCBI                     | <a href="#">613</a>                                                                                                                                                                                                                                           |
| Puffer                   | 0.01M TBS(pH7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.                                                                                                                                                                                              |
| Quelle                   | KLH conjugated synthetic phosphopeptide derived from human Bcr around the phosphorylation site of Tyr177 [PF(p-Y)VN]                                                                                                                                          |

|                        |                                                                                                                                                   |
