## Product Datasheet

### **Phospho-HDAC4 (Ser246) + HDAC5 (Ser259) + HDAC7 (Ser155) Polyclonal Antibody, APC Conjugated, Rabbit BSS-BS-3073R-APC**

|                          |                                                                                                                                                                                                                                                               |

| Konjugation              | APC                                                                                                                                                                                                                                                           |
| Produktbeschreibung      | Histones play a critical role in transcriptional regulation, cell cycle progression, and developmental events. Histone acetylation/deacetylation alters chromosome structure and affects transcription factor access to DNA. The protein encoded by this g... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                        |
