| Produktbeschreibung      | PYK2 is involved in calcium induced regulation of ion channel and activation of the map kinase signaling pathway. PKY2 may represent an important signaling intermediate between neuropeptide activated receptors or neurotransmitters that increase calci... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
