| Kategorie                | Proteine/Peptide                                                                                                                                                                                                                                              |
| Applikation              | ELISA, SDS-PAGE                                                                                                                                                                                                                                               |
| Spezies Reaktivität      | Virus                                                                                                                                                                                                                                                         |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | The spike (S) glycoprotein of coronaviruses contains protrusions that will only bind to specific receptors on the host cell. The spike is essential for both host specificity and viral infectivity. The spike (S) glycoprotein of coronaviruses is known ... |
| Tag                      | C-His                                                                                                                                                                                                                                                         |

| Puffer                   | 10mM PBS(pH7.4)                                                                                                                                                                                                                                               |

|                   |                                                                                                                                                          |
|-------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------|
| Quelle            | Recombinant SARS-CoV-2 Spike RBD (Y453F) Protein, C-His protein is expressed in HEK293 with C-His. It contains the amino acid sequence of Arg319-Phe541. |
| Expression System | HEK293                                                                                                                                                   |
| Reinheit          | >90% as determined by SDS-PAGE                                                                                                                           |
