| Hersteller               | Bioss                                                                                                                       |
| Kategorie                | Proteine/Peptide                                                                                                            |
| Spezies Reaktivität      | Other                                                                                                                       |
| Konjugation              | Biotin                                                                                                                      |
| Tag                      | N-His                                                                                                                       |
| Puffer                   | Lyophilized from 0.22um filtered solution in 20mM PB (pH 7.4). 5% trehalose is added as a protectant before lyophilization. |
| Quelle                   | Recombinant rat Cyp2j3 protein is expressed in E.coli with N-His. It contains the amino acid sequence of 32-502/502         |
| Expression System        | E.coli                                                                                                                      |
| Reinheit                 | >90% as determined by SDS-PAGE                                                                                              |
