| Applikation              | IF, WB                                                                                                                                                                                                                                                        |
| Spezies Reaktivität      | Mouse                                                                                                                                                                                                                                                         |
| Konjugation              | APC/Cy7                                                                                                                                                                                                                                                       |
| Produktbeschreibung      | Polymerase that creates the 3-poly(A) tail of mRNAs. Also required for the endoribonucleolytic cleavage reaction at some polyadenylation sites. May acquire specificity through interaction with a cleavage and polyadenylation specificity factor (CPSF) ... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                    |
