| Konjugation              | Biotin                                                                                                                                                                                                                                                       |
| Produktbeschreibung      | The protein encoded by this gene is a homeobox-containing transcription factor of the POU domain family. The encoded protein binds the octamer sequence 5-ATTTCAT-3, a common transcription factor binding site in immunoglobulin gene promoters. Several... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                   |
| Konzentration            | 1ug/ul                                                                                                                                                                                                                                                       |
| NCBI                     | <a href="#">5452</a>                                                                                                                                                                                                                                         |
| Puffer                   | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol.                                                                                                                                                      |

|                        |                                                          |
|------------------------|----------------------------------------------------------|
| Quelle                 | KLH conjugated synthetic peptide derived from human Oct2 |
| Target-Kategorie       | OCT2                                                     |
| Application Verdünnung | WB(1:300-5000), IHC-P(1:200-400), IHC-F(1:100-500)       |
