| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                            |
| Konjugation              | PE                                                                                                                                                                                                                           |
| Produktbeschreibung      | Implicated in immunoproteasome assembly and required for efficient antigen processing. The PA28 activator complex enhances the generation of class I binding peptides by altering the cleavage pattern of the proteasome.... |
| Klonalität               | Recombinant                                                                                                                                                                                                                  |
| Konzentration            | Lot dependent                                                                                                                                                                                                                |
