| Alternativnummer         | BSS-BSM-62595R-CY5.5-100                                                                                                                                                                                                                                      |
| Hersteller               | Bioss                                                                                                                                                                                                                                                         |
| Wirt                     | Rabbit                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | FC, WB                                                                                                                                                                                                                                                        |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                                                         |
| Konjugation              | Cy5.5                                                                                                                                                                                                                                                         |
| Produktbeschreibung      | Key enzyme in isoprenoid biosynthesis which catalyzes the formation of farnesyl diphosphate (FPP), a precursor for several classes of essential metabolites including sterols, dolichols, carotenoids, and ubiquinones. FPP also serves as substrate for p... |
| Klonalität               | Recombinant                                                                                                                                                                                                                                                   |
| Konzentration            | Lot dependent                                                                                                                                                                                                                                                 |
| NCBI                     | <a href="#">2224</a>                                                                                                                                                                                                                                          |
| UniProt                  | <a href="#">P14324</a>                                                                                                                                                                                                                                        |

|                        |                                                                                                         |
|------------------------|---------------------------------------------------------------------------------------------------------|
| Puffer                 | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol. |
| Quelle                 | KLH conjugated synthetic peptide derived from human FPS                                                 |
| Target-Kategorie       | FDPS                                                                                                    |
| Application Verdünnung | WB(1:300-5000), FCM(1ug/Test)                                                                           |
