| Konjugation              | PE                                                                                                                                                                                                                                                            |
| Produktbeschreibung      | Adapter protein which associates with tyrosine-phosphorylated growth factor receptors or their cellular substrates. Maintains low levels of EIF2S1 phosphorylation by promoting its dephosphorylation by PP1. Plays a role in ELK1-dependent transcription... |
| Klonalität               | Recombinant                                                                                                                                                                                                                                                   |
| Konzentration            | Lot dependent                                                                                                                                                                                                                                                 |
