| Kategorie                | Antikörper                                                                                                                                                                                                                       |
| Applikation              | WB                                                                                                                                                                                                                               |
| Spezies Reaktivität      | Human                                                                                                                                                                                                                            |
| Konjugation              | BF680                                                                                                                                                                                                                            |
| Produktbeschreibung      | Inhibits signal transduction by increasing the GTPase activity of G protein alpha subunits thereby driving them into their inactive GDP-bound form. Activity on G(o)-alpha is specifically enhanced by the RGS6/Gbeta5 dimer.... |
| Klonalität               | Recombinant                                                                                                                                                                                                                      |
| Konzentration            | Lot dependent                                                                                                                                                                                                                    |
