| Kategorie                | Antikörper                                                                                                                                                                                                                                                     |
| Applikation              | IHC-Fr, IHC-P, WB                                                                                                                                                                                                                                              |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                              |
| Konjugation              | HRP                                                                                                                                                                                                                                                            |
| Produktbeschreibung      | Accessory subunit of the mitochondrial membrane respiratory chain NADH dehydrogenase (Complex I), that is believed not to be involved in catalysis. Complex I functions in the transfer of electrons from NADH to the respiratory chain. The immediate elec... |
| Klonalität               | Recombinant                                                                                                                                                                                                                                                    |
| Konzentration            | Lot dependent                                                                                                                                                                                                                                                  |
| NCBI                     | <a href="#">9218</a>                                                                                                                                                                                                                                           |
| UniProt                  | <a href="#">Q9P0L0</a>                                                                                                                                                                                                                                         |

|                        |                                                                                                         |
|------------------------|---------------------------------------------------------------------------------------------------------|
| Puffer                 | Aqueous buffered solution containing 0.01M TBS (pH 7.4) with 1% BSA, 0.02% Proclin300 and 50% Glycerol. |
| Quelle                 | KLH conjugated synthetic peptide derived from human VAMP A                                              |
| Target-Kategorie       | VAPA                                                                                                    |
| Application Verdünnung | WB(1:300-5000), IHC-P(1:200-400), IHC-F(1:100-500)                                                      |
