| Hersteller               | Aves Labs                                                                                                                                                                                                                                                     |
| Wirt                     | Gallus                                                                                                                                                                                                                                                        |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                    |
| Applikation              | ELISA, ICC, IHC, WB                                                                                                                                                                                                                                           |
| Spezies Reaktivität      | Human, Mouse, Primate, Rat, Zebrafish                                                                                                                                                                                                                         |
| Immunogen                | Fusion protein amino acids 208-427 (C-terminus) of mouse Arl13b (accession number Q640N2) produced recombinantly in E. Coli                                                                                                                                   |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                  |
| Produktbeschreibung      | Our chicken Anti-Arl13b recombinant monoclonal antibody is a chimeric antibody derived from NeuroMab clone N295B/66. It detects human, mouse, non-human primate, rat, and zebrafish Arl13b and is purified by affinity chromatography. It works in WB, IHC... |
| Klonalität               | Recombinant                                                                                                                                                                                                                                                   |
| Konzentration            | 1 mg/mL                                                                                                                                                                                                                                                       |

|                        |                            |
|------------------------|----------------------------|
| Klon-Bezeichnung       | [N295B/66]                 |
| Molekulargewicht       | 50 kDa                     |
| UniProt                | <a href="#">Q640N2</a>     |
| Puffer                 | PBS                        |
| Formulierung           | Liquid                     |
| Target-Kategorie       | Arl13b                     |
| Antibody Type          | Primary Antibody           |
| Application Verdünnung | Dilution Range: WB: 1:1000 |
