| Wirt                     | Gallus                                                                                                                                                                                                                                                         |
| Kategorie                | Antikörper                                                                                                                                                                                                                                                     |
| Applikation              | ICC, IHC, WB                                                                                                                                                                                                                                                   |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                              |
| Immunogen                | Recombinant construct containing the C-terminus of the human sequence expressed in Escherichia coli                                                                                                                                                            |
| Konjugation              | Unconjugated                                                                                                                                                                                                                                                   |
| Produktbeschreibung      | NFM protein was purified from bovine spinal cords following the method of Delacourte et al. [Study of the 10-nm-filament fraction isolated during the standard microtubule preparation (1980). Biochem. J. 191(2): 543-546], followed by Prepcell purificat... |
| Klonalität               | Polyclonal                                                                                                                                                                                                                                                     |
| Konzentration            | 2 mg/mL                                                                                                                                                                                                                                                        |

|                        |                                                                                                                                                                                                            |
|------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Molekulargewicht       | 150 kDa                                                                                                                                                                                                    |
| UniProt                | <a href="#">P07197</a>                                                                                                                                                                                     |
| Puffer                 | Phosphate-buffered (10 mM) isotonic (0.9%, w/v) saline (PBS pH 7.2) with bovine serum albumin (BSA, 0.5%) added to prevent absorption to the plastic and sodium azide (0.02%, w/v) added as a preservative |
| Formulierung           | Liquid                                                                                                                                                                                                     |
| Target-Kategorie       | Neurofilament Medium Chain (NFM)                                                                                                                                                                           |
| Antibody Type          | Primary Antibody                                                                                                                                                                                           |
| Application Verdünnung | Dilution Range: WB: 1:1000-1:2000. Dilution Range: IHC: 1:1000-1:2000. Dilution Range: ICC: 1:1000-1:2000                                                                                                  |
