## Product Datasheet

### Palladin Antibody / PALLD, Rabbit, Polyclonal NSJ-FY12188

Artikelname	Palladin Antibody / PALLD, Rabbit, Polyclonal
Artikelnummer	NSJ-FY12188
Hersteller Artikelnummer	FY12188
Alternativnummer	NSJ-FY12188
Hersteller	NSJ Bioreagents
Wirt	Rabbit
Kategorie	Antikörper
Applikation	ELISA, WB
Spezies Reaktivität	Human
Immunogen	E.coli-derived human Palladin/PALLD recombinant protein (Position: H89-L1383) was used as the immunogen for the Palladin antibody.
Produktbeschreibung	Palladin antibody detects Palladin, encoded by the PALLD gene on chromosome 4q32.3. Palladin antibody is widely used in research on cytoskeletal regulation, cell adhesion, and migration. Palladin is an actin-associated protein that plays essential ro...
Klonalität	Polyclonal
UniProt	<a href="#">Q8WX93</a>
Puffer	Each vial contains 4 mg Trehalose, 0.9 mg NaCl, 0.2 mg Na <sub>2</sub> HPO <sub>4</sub> .
Reinheit	Immunogen affinity purified

Formulierung	Adding 0.2 ml of distilled water will yield a concentration of 500 ug/ml
Antibody Type	Primary Antibody
Application Verdünnung	Western Blot: 0.25-0.5ug/ml,ELISA: 0.1-0.5ug/ml
Anwendungsbeschreibung	Optimal dilution of the Palladin antibody should be determined by the researcher.
