| Applikation              | IHC-P, WB                                                                                                                                                                                                                                                     |
| Spezies Reaktivität      | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                | Amino acids MQSNKTFNLEKQNHTPRKHHQH HHQHHQQHQQQQQ of human NONO/p54nrb were used as the immunogen for the p54nrb antibody.                                                                                                                                     |
| Produktbeschreibung      | Non-POU domain-containing octamer-binding protein is a protein that in humans is encoded by the NONO gene. This gene encodes an RNA-binding protein which plays various roles in the nucleus, including transcriptional regulation and RNA splicing. A rea... |

| Puffer                   | Lyophilized from 1X PBS with 2.5% BSA and 0.025% sodium azide                                                                                                                                                                                                 |
| Reinheit                 | Antigen affinity                                                                                                                                                                                                                                              |

|                        |                                                                                 |
|------------------------|---------------------------------------------------------------------------------|
| Formulierung           | 0.5mg/ml if reconstituted with 0.2ml sterile DI water                           |
| Antibody Type          | Primary Antibody                                                                |
| Application Verdünnung | Western blot: 0.1-0.5ug/ml,IHC (FFPE): 0.5-1ug/ml                               |
| Anwendungsbeschreibung | Optimal dilution of the p54nrb antibody should be determined by the researcher. |
